

**Each year,**  
an average of over 6,000  
workers suffer a **head injury**  
and **more than 200 die** from  
that injury.<sup>1</sup>

**Always wear head  
protection.**

**It can protect you from  
cuts, burns, bruises, and  
traumatic brain injuries  
like concussions and  
death.**

**Check out CPWR's Guide to Selecting Head Protection for Construction Work to help determine which type of protective headgear is right for you or your crew! (visit the link to the right)**
